

On the Spot!

Our New Design, Deliver & Setup Service

Do you have a blank area at your home just begging to become a thing of beauty? Let Kennedy's design and setup your new landscape with our quick and easy 'On The Spot' design, deliver and setup service. We deliver the plants right to your home and set them up in front of your eyes. No more second guessing whether you would like it or not!

After using either our 'Plant-A-Plan' guide or an on site garden consultant, you will bring your ideas in to one of our in-store designers to discuss how our new service will work for you. If it seems like a 'fit' you will walk the nursery together and choose plants that you like that work within the design and site conditions at your home. Then these plants, along with some extras for on the spot options, will be brought to your home and set up so you can actually see what the design looks like. No more imagine this or that, it will be right there to see.

Professional design, proper spacing and long term results will be considered as we set up your newly beautified space. You can choose to have the plants installed by a contractor or you can dig them in yourself, the choice is yours.

A pre-paid fee of \$200* includes delivery to local towns and setup of the plants. The cost for materials is additional. A credit card on file is required so that payment can be processed upon completion of the job. If for any reason you do not like the design or our plant choices, there is no obligation to take any of the plants. However, the pre-paid fee for Kennedy's transporting the plants and the designer's time is non-refundable. We are confident that you will be completely satisfied with your new landscape.

Kennedy's Country Gardens

Inspiring Successful Gardens Since 1960

85 Chief Justice Cushing Hwy, Rt 3A
Scituate, MA 02066
